### About Novox Music...

Novox Music, is an independent record label started in 1983 by John Huling. The original concept of NOVOX, an artist owned label, was to create and release nature inspired spiritual instrumental music without words... no- vocals or Novox. The sounds of Nature with instrumental music crosses all cultural boundaries. One need not understand the language or the lyrics... the religion or the politics. There are none. The music itself says what is needed. The listener fills in the spaces with his or her own interpretation of the meaning and feeling. At Novox Music, we believe this creates a timelessness to the music allowing one to journey within the musical landscape of time and space. Each visit is different than the last. A Musical Journey if you will. Novox Music... music without words. Music Beyond Words!

Take a musical journey amongst the canyons, mesas and ruins of the Southwest with John Huling's music.

"There is a peace felt in these canyons and mesas unlike anywhere else I have been. Perhaps it is the isolation from the busy world, maybe it is the beauty and the wildlife that surrounds you, or maybe, as I believe, it is the spirits of the long lost civilization that inhabits this vast area of the Southwest."
